# FOUR NEW ROTARY & DEMOLITION HAMMERS...

**KHE56:** 1 9/16"-1 3/4" SDS-MAX ROTARY HAMMER  
Combination Hammer for Drilling  
and Medium Duty Chiselling

**MHE56:** SDS-MAX CHISELLING HAMMER

## Key Features and Benefits:

1. Die-cast magnesium gearbox housing is sturdy and light weight for long life
2. Protected service display and signal lamp for voltage overload to motor
3. Metabo VibraTech (MVT): reduced vibration and comfortable to use thanks to integrated damping system on handles (main handle and side handle)
4. Ideal working position for all jobs:
  - additional handle can be fitted at 3 points
  - chisel lockable in 12 positions
  - lockable switch for comfortable long-duration chipping work
5. Power reduction for anti-spalling/brittle materials

## Other Features:

- SDS-max chuck
- Safety clutch / Rotation stop for chipping work
- VTC Electronic Soft Start for precise start of drilling / Speed Stabilization
- 9 foot rubber-clad power cord

**KHE96:** 2" SDS-MAX ROTARY HAMMER  
Combination Hammer for Drilling  
and Heavy Duty Chiselling

**MHE96:** SDS-MAX DEMOLITION HAMMER

## Key Features and Benefits:

1. Aluminum gearbox housing is sturdy and light weight for long working life
2. Metabo VibraTech (MVT): reduced vibration and comfortable to use thanks to integrated damping system on handles (main handle and side handle)
3. Ideal working position thanks to three rubber coated handles
4. Long slim design for upright working position
5. Chisel lockable in 16 positions; lockable switch (MHE96 only) for comfortable long-duration chipping work
6. Setting wheel for pre-selection of speed / number of impacts.

## Other Features:

- SDS-max chuck
- Electronic soft start for precise start of drilling
- Carbon-brush-wear display
- Service lid: simple access to carbon brushes
- 9 foot rubber-clad cable
