

Changing the way things are done.

Introducing Revolutionary Magswitch Technology and Our New Line of MagSquares.

Magswitch will forever change your perception of magnets. Once you use Magswitch MagSquares, they'll have a permanent place in your toolbox. Our MagSquares provide a new level of fast and easy multiplane workholding when positioning steel. Magswitch MagSquares exert a powerful magnetic field with a simple 180-degree rotation of the knob.

Magswitch – changing the way things are done.

Compact and Strong

Holds metal on multiplanes for welding ease!

Precise Positioning

Shaped for 90-degree angles. Attach to flat/round surfaces.

Stays Clean

Turn off Magswitch and wipe away debris.
