- Protects cylinders during transportation and handling at the job site.
- UV inhibitors prevent breakdown due to sunlight or weather.
- Continue to perform ring test (results may be at a lower pitch)
- Sizes are pre-cut to a length that allows the cylinders to be kicked rolled while still providing protection.
- Natural Color; Material High-Density Polyethylene.

TAMPER-EVIDENT STRAP (CAP & PLUG)

- Dual gate design allows for product retention after tamper evident gate is broken
- Protects valve threads from damage and contamination during transportation.
- Use as a cap on CGA-300, 320, 326, 330, 346 and 350 valves.
- Use as a plug on CGA-500, 510, 580 and 590 valves.
- Color: Yellow; Material: Low Density Polyethylene

Unique Design!
Can be used as a cap or plug.
