

6 & 12 PACK MANIFOLDS

Western's 6 and 12 pack cradle manifolds are designed to provide the high volume gas user convenience of multiple cylinder hook-up where stationary manifold systems are not practical.

Specifications:

- Two replaceable pigtail designs offered:
 - Replaceable rigid copper
 - Replaceable stainless steel braided flexible
- Design enables you to replace a pigtail versus the entire manifold set-up.
- Cylinder valve on each end for charging and discharging cylinders.
- 3/4" brass pipe construction; 3000 PSIG working pressure

Part #	Description
GM-X-6	6 pack manifold with replaceable rigid copper pigtails
GM-X-6B	6 pack manifold with non-replaceable rigid copper pigtails
GM-X-6F	6 pack manifold with replaceable flexible SS braided pigtails
GM-X-12	12 pack manifold with replaceable rigid copper pigtails
GM-X-12B	12 pack manifold with non-replaceable rigid copper pigtails
GM-X-12F	12 pack manifold with replaceable flexible SS braided pigtails

HOW TO ORDER: X = Indicates Gas Service

X =	GAS SERVICE
2	Compressed Air – CGA-346
3	Argon – CGA-580
5	Helium – CGA-580
6	Hydrogen – CGA-350
7	Nitrogen – CGA-580
9	Oxygen – CGA-540

BRASS MANIFOLD PIPING

Working Pressure: 3000 PSIG
Material: Brass UNS C36000

Length (In Inches)	Working Pressure	1/2" NPT Part Number	3/4" NPT Part Number	1/2" Nominal Part Number	3/4" Nominal Part Number
1-1/2	3000 PSIG	WHF-3-1	WHF-3-9		
2	3000 PSIG	WHF-3-2	WHF-3-10		
4	3000 PSIG	WHF-3-3	WHF-3-11	WHF-3-4	WHF-3-12
