

CGA PLUG & CHAIN ASSEMBLIES

- One piece plug and chain (with hook) assemblies.
- Gas tight seal.
- Meets all CGA specifications for sealing manifolds and cylinders.
- CGA nut and blind nipple (plug) combination.
- Constructed of brass material unless otherwise specified.

Part # (WITH CHAIN)	Description	Part # (WITHOUT CHAIN & HOOK)
	CGA-296, Industrial Mixtures of Oxygen	CP-296N
CP-320	CGA-320, Carbon Dioxide	CP-320N
CP-326	CGA-326, Nitrous Oxide	
	CGA-330, Non Corrosive Gases	CP-330N
CP-346	CGA-346, Air	
CP-350	CGA-350, Hydrogen, Natural Gas	CP-350N
CP-510	CGA-510, POL Acetylene	CP-510N
CP-520	CGA-520, B Tank Acetylene	
CP-540	CGA-540, Oxygen	CP-540N
CP-580	CGA-580, Nitrogen, Argon, Helium,	CP-580N
CP-590	CGA-590, Industrial Air	
	CGA-660, Refrigerant Gases	CP-660N
	CGA-705, Ammonia (Stainless Steel)	CP-705N

Some models now available without a chain assembly.

MASTER VALVES

- Designed specifically for high pressure compressed gas manifold piping requirements.
- Large tee handle for easy operation.
- For use with non-corrosive gases.
- Pressure rating: 3000 PSIG; Brass

Part #	Description
WMV-2-16	½" NPT Female Inlet & Outlet
WMV-2-11	¾" NPT Female Inlet & Outlet

CUSTOM MANIFOLDS

Western can manufacture any type of custom manifold to meet your specific requirements. No manifold is too small or too large for us. Let us save you time and money. Call us with your needs.

Western offers a complete line of ½" and ¾" brass manifold pipe, elbows, tees and crosses. Contact us for a complete product listing.
